

EASYfoam NP plus

High-quality convoluted foam

EASYfoam NP plus is a high-quality convoluted foam with very good sound absorption values. This convoluted foam has a self-adhesive back and is easy to apply.

Profits

- ✓ High-quality open cell polyether foam
- ✓ Sturdy thanks to even cell distribution
- ✓ Powerful adhesive

Composition

EASYfoam NP plus is made of a high-quality, open-cell polyether. It is of very good quality, excellent resistance to ageing. The adhesive backing ensures this product is easy to apply. The very even cell distribution ensures the material feels sturdy and looks good.

Size

100 x 60 cm and 120 x 100 cm.

Custom made

EASYfoam NP plus is available in different dimensions and thicknesses. Available in die-cuts or in custom sizes if desired. For more information, please contact us.

Color

Dark Gray

Processing

Can be personally custom cut to size with a utility knife or band saw. For good adhesion of the self-adhesive layer, the substrate must be clean, dry and free of dust and grease. If the surface is rough and/or uneven, it must first be pre-treated on one side with contact adhesive to guarantee good adhesion.

The absorption values are measured according to EN 354:2003

EASYfoam NP plus

	Density kg/m ³	Thickness (mm)	NRC
NP30	26/28	30	0,30
NP50	26/28	50	0,55

Fire safety

EASYfoam NP plus is flame-retardant according to FMVSS302 and UL94 class HF1. However, polyester foams and polyether foams are unsuitable for use in public areas because of the high fire safety requirements in these areas.

#weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock.

Ordering or more information

Visit our website or showroom for acoustic advice or contact us by telephone for an appointment on location.
