

# EASYfoam TC2

## Sound absorbing foam

EASYfoam TC2 is a high quality sound absorbing foam made from polyurethane. The top layer has a slightly higher density and the backside is self adhesive, which makes it very easy to apply. This product absorbs sounds on a wide frequency range and is an excellent fit for industrial applications in a dry environment.

### Profits

- ✓ Very good noise absorption
- ✓ For applications in a dry environment
- ✓ Self-adhesive

### Applications

- Woodworking or metalworking installations
- Server rooms
- Dust extraction
- Automotive industry
- Agricultural and horticultural machinery (dry applications)

### Size

100 x 60 cm and 120 x 100 cm.

### Maatwerk

EASYfoam TC2 can be custom made, including different measurements and thicknesses as well other forms of processing.

### Color

Anthracite

### Processing

EASYfoam TC2 can easily be shaped with a cutter. To assure a good hold, it's necessary that the surface is clean, dry and free of grease. Apply firm pressure on the product to make sure that there's no air left under the TC2. When facing a rough surface, it should be treated with MKD Extreme Tack contact adhesive to assure a good hold.

The absorption values are measured according to EN 354:2003

#### EASYfoam TC2

#### Adhesive layer

The adhesive layer is temperature resistant up to 70°. Don't apply the product when the room temperature is below 15°.

#### Aging of the product

This product decays faster under the influence of UV-radiation, heat, and moisture. This can lead to disintegration and/or loss of the acoustic abilities.

#### #weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock.

#### Ordering or more information

Visit our website or showroom for acoustic advice or contact us by telephone for an appointment on location.
