

# EASYfoam FireSeal

## Fireproof acoustic foam

EASYfoam FireSeal is a flexible open cell acoustic foam made from polyurethane. Because EASYfoam FireSeal is fireproofed, it can be used in environments with high standards regarding fire safety.

### Profits

- ✓ Fire resistant
- ✓ Antibacterial and anti-fungal
- ✓ Noise-insulating because of the high density (90 kg/m<sup>3</sup>)

### Applications

- Technical rooms
- Airchambers
- Ventilation and climate control
- Boats and Motorvehicles
- Public places

Unlike other polyurethane based acoustic foams, EASYfoam FireSeal can be used in public locations due to the fireproof capabilities.

### Size

96 x 58 cm and 116 x 96 cm.

### Custom made

EASYfoam FireSeal can be custom made, including different measurements and thicknesses as well other forms of processing and different top layers.

### Color

Black

### Processing

EASYfoam FireSeal can easily be shaped with a cutter or a saw. To assure a good hold, it's necessary that the surface is clean, dry and free of grease. Apply firm pressure on the product to make sure that there's no air left under the fireseal.

When facing a rough surface, it should be treated with MKD Extreme Tack contact adhesive to assure a good hold.

The absorption values are measured according to EN 354:2003

#### EASYfoam FireSeal

#### Adhesive

The adhesive layer is temperature resistant up to 100°. Don't apply the product when the room temperature is below 15°.

#### Moisture

This product doesn't decay faster under the influence of moisture.

#### Fire resistance

EASYfoam FireSeal is fire resistant according to EN13501 class B-s1, d0.

#### #weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock.

#### Ordering or more information

Visit our website or showroom for acoustic advice or contact us by telephone for an appointment on location.
