

# EASYceiling Direct

## Acoustic ceiling panel

The EASYceiling direct are acoustic ceiling panels that have excellent sound absorption values. Because the panels can be glued directly to the structural ceiling, these panels are very suitable for rooms with a low height.

### Advantages

- ✓ Glueable
- ✓ Straight edge or faceted edge
- ✓ Multiple sizes and colours

### Applications

- Offices
- Restaurants
- Classrooms

### Composition

The acoustic ceiling panels are made of glass wool.

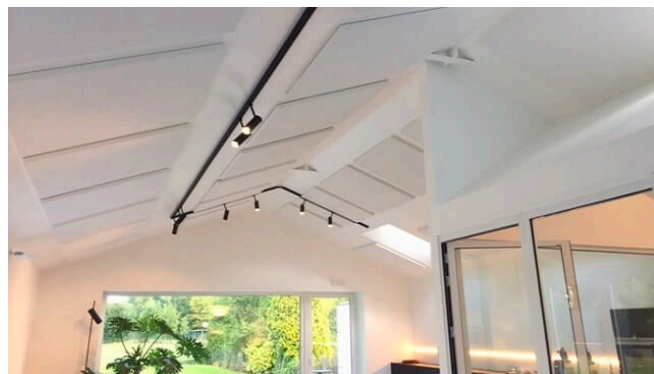

### Finish

The EASYceiling Direct is available in two versions: with a straight edge or with a faceted edge. When the panels have to be placed directly next to each other, it is best to opt for the faceted edge. Thanks to the narrow groove, this produces a beautiful result. The ceiling panels with a straight edge give a nice result when they are installed with space between them.

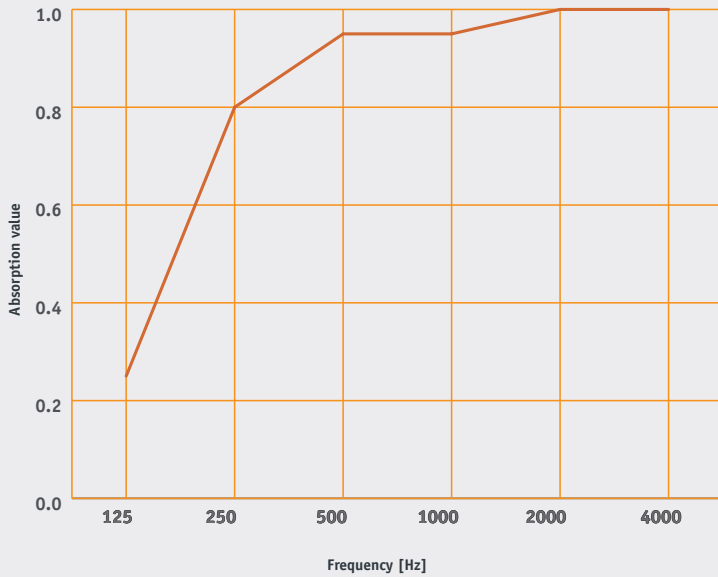

### Size

The acoustic ceiling panels have a size of 60 x 60 cm, 120 x 60 cm and 120 x 120 cm and a thickness of 40 mm.

### Colour

The absorption values are measured according to EN 354:2003  
**EASYceiling Direct**  
per m2 element

**EASYceiling Direct 1200x1200,**  
suspension height 43 mm

### Cleaning

The panels may be dusted and vacuumed daily and cleaned weekly with a damp cloth.

### Weight

4.5 kg/m<sup>2</sup>

### Installation

The EASYceiling Direct are easy to install with the supplied mounting adhesive. Have a look at the installation manual or contact us for more information.

### Environmentally friendly

The ceiling panels are 100% recyclable.

### Fire safety

The ceiling panels are composed of material that is classified according to the applicable standards (EN 13501-1) as fireproof with European fire class A2. The glass wool core of the ceiling panels has been tested and classified as non-combustible according to EN-ISO 1182.

### #weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock.

### Ordering or more information
