

EASYindustry Ceiling

Acoustic ceiling element

The EASYindustry Ceiling is a very good acoustic and absorbent ceiling element. This element has been specially developed to improve the acoustics in production halls and workshops. The element consists of a brute aluminium frame and an acoustic plate in the colour white.

Advantages

- ✓ Fire-safe
- ✓ Modular construction
- ✓ Various suspension heights

Applications

- Industry
- Production hall
- Workplace

Composition

EASYindustry Ceiling is made of glass wool.

Thickness

20 mm.

Dimensions

EASYindustry Ceiling is available as standard in 1200 x 1200 mm.

Colour

White

Frame

Aluminium

The absorption values are measured according to EN 354:2003

EASYindustry ceiling per m2 element

Installation

The EASYindustry Ceiling is supplied including hangers. The elements are suspended from four points in the frame. You can choose the suspension height of the hangers yourself. For a dovetailed ceiling or profile plate, we recommend a minimum suspension height of 25 cm. We have developed special rigid hangers for this. Of course, we can place the ceiling islands for you on request.

Cleaning

EASYindustry Ceiling can be dusted with a dry cloth or vacuum cleaner.

Environmentally friendly

The ceiling elements are 100% recyclable.

Fire safety

The ceiling elements are composed of material that is classified according to the applicable standards (EN 13501-1) as fireproof with European fire class A1.

#weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock.
