

EASYmass pipe insulation

Sound insulation for all kind of pipes

EASYmass pipe insulation is specially designed to reduce streaming sounds from down pipes or drains. It has an aluminum gauze core, which makes it easy to bend and to apply around pipes. This makes EASYmass pipe insulation the perfect alternative for traditional leaded products. The front side is finished with a anthracene colored 2mm PVC-foam.

Profits

- ✓ Excellent sound insulation
- ✓ Fire class B-s2,d0
- ✓ Finished with a reinforced aluminium top layer

Function

EASYmass pipe insulation uses the mass-spring principle. Its composed from a thin foam layer and a ground plane (4kg/m²). Because of these properties, EASYmass pipe insulation has some excellent damping values.

Size

Dimension: roll of 2000 x 1000 mm. Thickness: 12 mm.

Color

Anthracite

Processing

Easily made to measures with a cutter. Product should be overlapping (about 50 mm) in length and width for the best result. Mount with tie-wraps or duct tape.

#weareacoustics

EASY Noise Control is the specialist in acoustics and sound insulation. We are market leader in solutions at the field of room acoustics for buildings. In addition, we supply a wide range of acoustic materials directly from stock.
